LETTER OF COMPLIANCE

RE: File #1998-01196, Presby/Ingerson Logging Operation

Dear Mr. Presby:

On October 23, 2000, the Department of Environmental Services ("DES") received a restoration status report from DSM Environmental Services ("DSM") relative to the above referenced file.

Based on the information contained in the DSM restoration status report, DES has concluded that the deficiencies requiring restoration have been corrected. Documents on file with DES also reflect that payment of the administrative fine agreed to by Mr. Ingerson (AF 98-50) has been received by DES. Based on the information on file with DES, therefore, this file will be closed at this time. DES reserves the right to reopen its file should new information be received contrary to the information that is on file.

Please be advised that further work in wetlands, waters of the state, the upland tidal buffer zone, the bank, flat, sand dune, or other areas of jurisdiction of DES requires a posted, approved permit prior to carrying out such work. Should you have any comments or questions, please do not hesitate to give me a call at (603) 271-4062.

Sincerely,
